Questions on MRSA / highly resistant micro-organisms

1. Have you been admitted to a foreign healthcare institution over the past year?
2. In your profession, do you come into contact with live veal calves, broilers or pigs, or do you live on a farm where these animals are kept?
3. Are you infected with MRSA or another highly resistant micro-organism?
Is your partner/housemate or somebody who takes care of you, infected with MRSA?
4. If patient < 18 years: were you adopted from abroad in the past year?
5. Over the past year, have you been admitted to a Dutch healthcare institution (not the Albert Schweitzer hospital) with a problem with MRSA or other highly resistant micro-organism?
6. Did you stay at a reception centre for asylum seekers?
